

Gray-New Gloucester Adult Education

Explore • Grow • Achieve

Gray-New Gloucester Adult Education is transitioning to a new website and course registration program called **ACTIVE**.

Create a new account

Every Active user will have to create an account. If you have used Active before, you already have an account. Creating an account is as simple as entering a password after you have registered for a course.

Signing into an existing account

When you want to sign into your existing account to check registrations or payments, use the email and password you used at registration with our unique registration link. The link can be found at the bottom of your email confirmation, in our catalog, on our website and the QR code below.

Search for Classes

In our new registration program, courses are called 'sessions'. Use the QR code to access our Active site. Use the menu on the left to filter the 'sessions' you see by location, type, instructor, etc.

Use your camera to scan this code.
