English for Multi-Lingual Learners

Are you a non-native speaker looking to improve language conversation, reading, writing, and computer skills in a friendly and comfortable atmosphere? Then, these free classes are for you!

Whether you are a beginner or looking to refine your skills, our teachers offer a supportive environment for all learners. Our classes cover vocabulary, grammar, listening, speaking, reading, and writing. Each class is tailored to the needs of the students and our staff places you in the class that is the best fit. Explore the English language through discussion, activities, and multimedia resources alongside a small group of peers working towards the same goal as you. Our staff will also help you track your progress by providing regular assessment and feedback. Additional materials for at-home study are available as well as academic advising and career support.

Regular class attendance is expected, and students should have reliable transportation or sufficient access to technology depending on the class modality.
